UConnPRE-COLLEGESUMMER

Join the UConn Pre-College Summer community where we provide high school students educational opportunities to explore, create, and pursue their passions through an immersive college summer program. Students enroll in a course taught by UConn faculty or industry professionals, participate in exploratory workshops intended to help students prepare for college both academically and socially, and engage in social activities designed to assist with the transition to college. Get a taste of what college life is like, before college, at the University of Connecticut.

Ease the Transition and Find Your Interest

UConn Pre-College Summer offers credit and non-credit courses taught by UConn faculty and industry professionals. We offer a wide variety of courses ranging from animation design to biomedical engineering artificial intelligence to human rights to nutrition to chemistry, and more! Visit pcs.uconn.edu/courses for details.

For more information about the program, visit our website pcs.uconn.edu, contact us by email at pcs@uconn.edu, or call us at (860) 486-0149.
